XSories reserves the right to change or alter any products or information contained herein at its own discretion without prior notice.

With a foundation of 20+ years of Action Sports distribution, XSories began in 2010 in Biarritz,

a vibrant surf community on the Atlantic coast in southwestern France. We enable fresh visual perspectives that complement and enhance the lives of modern nomads. Our collection is comprised of a wide range of innovative products to store, transport, mount, capture and share your world. We support and celebrate the human creative spirit. The primary motivator - LIVE.CAPTURE.SHARE unites the space between modern image capture, the places we travel and the paths we choose to take. XSories seeks to help everyone be a better creator. We sell through a comprehensive network of worldwide retailers within a wide variety of market segments.

Our worldwide offices are located in California, Shenzhen, Hong Kong, Biarritz, London and Dubai.

For us, it's all about celebrating creation, so we want you to help us on a global scale.

Every day until the end of the year, we'll be selecting one creator as the XSories Creator Of The Day - each and every day until the end of the year. By entering, you will be eligible to win a $100 gift voucher, daily! Upload your content to Instagram under the tags @xsories #xsories #creatoroftheday to be spotted by our social media team. There is no limit to how many different photos or videos you want to share, we want our team to work for their money. Remember - LIVE.CAPTURE.SHARE - the rest is up to you.

COMPACT PERSONAL PROJECTOR

Why limit your footage to tiny screens or be bored to tears by hotel television? No matter what device you captured it all with, watch it all in rich colour, big screen style on any light-coloured background. With its wide range of media format compatibility, you can turn even the most basic hotel room or travel time into a cinematic experience with nothing more than a video file and your favorite headphones. Enjoy.

FEATURES

- DLP & LED technology for amazing colour and sharp definition
- Supports many popular media formats
- View media directly from USB/MicroSD storage & most smart devices
- 4GB onboard memory
- 1W onboard speaker
- 30.000 hour bulb lifespan
- Li-Ion battery. Up to 2 hours of viewing

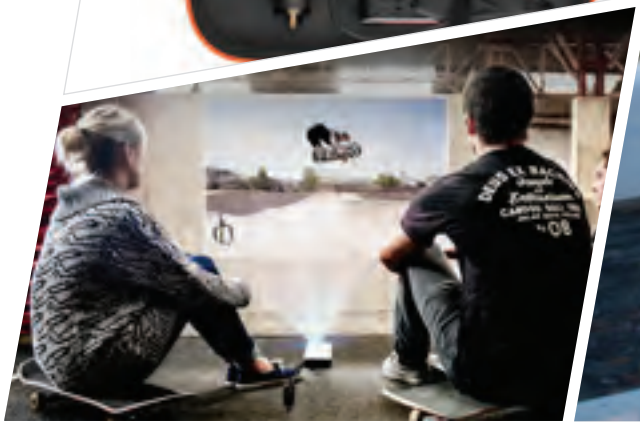
X•Project Nomadic Cinema

COMPACT PERSONAL PROJECTOR WITH ADVANCED MOUNTING OPTIONS



Share your best day with friends and family, or escape the one you're having. X-Project will play most popular media file formats via USB or Micro-SD card and project them in virtually any dim environment with crisp, vibrant colour. Added to this is a selection of our most popular mounting options, giving you virtually unlimited access to the best viewing angles. No matter where you find yourself, your content will never seem the same. Just like the places you choose to view it. Enjoy.

FEATURES

- Custom designed premium travel case
- ¼" Universal screws on all mounting options – compatible with your favorite camera too
- 40 lumen LED projection
- DLP technology – for brilliant, rich colour
- Onboard Li-Ion battery – up to 2 hours of playback
- 3.5mm headphone port. Headphones or speakers, your choice
- Playback via USB and Micro-SD

Weye Feye S

WI-FI LINKS YOUR DIGITAL CAMERA TO YOUR SMART DEVICE

Link your digital eye with your smart device and instantly review, edit and share your content on all social media platforms. Or further. Taking our original Weye Feye we stripped it back to the essence of what it could be, while still allowing you to truly LIVE.CAPTURE.SHARE. Tapping the power of our innovative App, Weye Feye S provides the link between these three creative elements. We streamlined the steps you need to take to share your experiences with your world, so you can remain focused on what matters most.

FEATURES

- Built in Wi-Fi with 80m signal range
- 0.2 sec latency. That's fast.
- Up to 8 hours operational battery life
- Embedded web server: share with up to 20 different devices

Weye Feye

WI-FI REMOTE CONTROL FOR DSLR CAMERAS

We imagined a Wi-Fi device that puts you in total control of your DSLR, allowing you to explore and use its powerful functions while expanding your creative mind. Without wires, with instant results and all via an intuitive interface on your preferred smart device. Take control over your DSLR to capture and share your life's story as it unfolds, wirelessly and without physical contact with your camera. All of this and more, made possible by our intuitive App that bonds to Weye Feye's own Wi-Fi network. Documenting your life's story is now easier than ever before.

X-Steady Electro 1 Axis

ELECTRONIC 1-AXIS CAMERA STABILIZER GIMBAL

Look honestly at your footage and you'll see sloping horizons and camera-shake that makes it tiring to watch. Capturing stable content with a perfectly flat horizon is a challenge, especially when following dynamic subjects. Our HorizonDrive ensures your composition remains on point, level and nearly pixel perfect. All with significantly reduced camera-shake. Use the included foam grip, or create stunning perspectives by pairing up with one of our iconic U-Shot poles to explore new angles. Chase your next scene with a focus on your subject and composition, not on your cameras' orientation.

FEATURES

- HorizonDrive - Fast reacting brushless motor technology
- ¼" Universal screw insert – explore different mounting options
- Lightweight – shoot longer without fatigue
- Suits most phones, GoPro, Sony, Contour and other action cameras
- Mounts for various devices included
- Up to 1.25 hours operational battery life

SPECS

X-Steady

HANDHELD PROFESSIONAL GIMBAL FOR DSLR

The X-Steady handheld camera stabilizer is the solution that brings together mobility and function. Its smart foldable design makes it compact, lightweight and easy to set up; perfect to catch the moment in seconds. Its universal camera base plate enables you to load any device weighting up to 2kg with a few screw turns. Made of quality materials, X-Steady guarantees a long-lasting and secure usage, whatever the weather conditions. It is designed to absorb shocks in order to allow for creativity and freedom of movement. With practice you will be steering your camera through three dimensions smoothly without a second thought. X-Steady will provide you with fluid motion control, adding a dynamic flair to your movies.

Trifold Pro

COMPACT TRIPOD

Capture that second angle perfectly or film a session with smooth, fluid style without the shake. Trifold Pro is more than just a tripod. Solid yet lightweight aluminium construction allows you to use it as a second remote viewpoint. Set it up as a camera steadyshot rig for your cleanest shots ever - the multifunction pouch doubles at a support belt. Style with ease.

FEATURES

- Speed-Release plate. Click on, swipe out.
- Ball-head. For the perfect angle.
- Touch Locks. One finger operation on opening, closing and flattening
- Quick-lock legs. Twist to lock or release.
- Weighing just 670g. Functional height range from 13cm to 47cm
  Handles cameras up to 2kg.
- Chest brace will steady the shake with medium telephoto lenses
- Flatten the legs for ultra-low angles or macro photography.
- Together with the pouch, extend one leg and grip the other two

UniCharge

UNIVERSAL BATTERY AND DEVICE CHARGER

Every new device you buy includes a dedicated battery charger. Before you know it, you're dragging a whole battery of chargers everywhere. Drop them all and charge virtually any rechargeable battery type with one charger. Traditional or device specific batteries, every one of them will find a place in UniCharge. The inbuilt USB port allows you to charge an extra device too. You're welcome.

FEATURES

- Sliding contact pins – for device specific rechargeable batteries
- Adjustable sliding contact bar – fits all traditional rechargeable batteries.
- USB port. Connect and charge a second device.
- LED charge indicator

XShine Deluxe Combo

LED SPOTLIGHT/ TELESCOPIC POLE/ UNIVERSAL MOUNT FOR SMART DEVICES

Modern smartphones are the go-to capture devices, but with low-light limitations. We bundled three of our best to take your spontaneous filming to a new level. Vague subjects in a sea of darkness will never spook your films again. And to reach above crowds or capture yourself and friends, we'd like to introduce you to our iconic U-Shot too. Your party, concert or nighttime films will be more illuminating than ever before.
